## **Strategies to Engage VIEW Clients**

# **Engagement Tips for Success**

- Relate to them as a person first, then a client
- > Be present and take the time to notice conversation themes
  - ➤ It's usually not what someone is saying, but the common "thread" within the topics they share with you
- Show your client that they have your undivided attention
- Remember the foundation of Engagement = Relationship

### **Engagement- Food for Thought**

- Meet the client where they are, not where you believe they should be.
- Look beyond client's "past" and lay the foundation for a successful trajectory.
- Clients are balancing multiple barriers at once for survival and can sometimes be one situation away from a potential emergency.
- Successes with VIEW clients should be viewed- one step at a time, one achievement at a time.
- Success is not always linear or a measurable statistic. We must pivot with our clients as circumstances change.
- We must celebrate wins of all sizes.
- Metrics, such as the WPR, show one side of the work.
